Research contributions addressing any aspects of *Corporate Social Responsibility in a time of crisis, European and Asian perspectives* are welcome. Besides this theme, other papers in the fields of economics and management with a particular reference to Asia may also be submitted.

The Research Seminar is intended to bring together researchers engaged in Management, Economics, Political Science and related fields from Europe, Asia and other parts of the World. Doctoral students are also strongly encouraged to submit papers for consideration.

Venue, Registration Fees, Accommodation and travel

The 2022 Research Seminar is jointly organized by University of Pau, Technological University Dublin and University of Poitiers. It will take place in Poitiers (France) on a hybrid format, in Poitiers for those who may come, and on line for the others. The hybrid format has been chosen because of the still uneven sanitary situation. The Research Seminar fee for those who come to Poitiers is 250 € and includes two dinners, two lunches, coffee breaks and a copy of the conference proceedings; it is 50 € for those who participate on line.

Available funding does not allow the organizing committee to provide financial support to participants in relation to accommodation and travel expenses. However, special assistance for accommodation booking in or near Poitiers will be provided, close to the Seminar venue.

Submission Rules

Papers in English should be original and not submitted for publication elsewhere. They may either be related to a particular country or be of a comparative nature. Papers accepted for presentation at the Seminar will be published as Conference Proceedings. Furthermore, a number of selected papers will be published in scholarly journals or/and books. Proposals for panel sessions will also be considered.
